

Gulfport Update

- The Gulfport facility remains closed at this time.
- Funding for the recovery of the facility is pending in the Katrina Emergency Funding Bill that is presently in Senate/House negotiations.
- Gulfport pack out and shipment update: In the very near future a contractor will be onsite to pack up all personal belongings. Please be advised at this stage the contractor will repack any items that have already been boxed and left for shipment due to liability. Molded or mildewed items will not be shipped.
- Administrative offices are located in Bldg. 13 on the Gulfport campus.
- Gate entry is located off Anniston Avenue.
- A contract will soon be in place to replace the perimeter fencing. Seabees will perform the work once the materials are purchased.
- The Seabees will also be assisting staff with removing and packing the memorabilia from the 10th floor and all other floors. The memorabilia will be stored in humidity-controlled warehouses at the Seabee Center for safe keeping.
- For residents planning a trip to Gulfport to retrieve personal belongings, please be advised that there is still only temporary lighting and no air conditioning in the building. As the days heat up, the temperature in the building is becoming increasingly dangerous. Plan accordingly and coordinate your visit with Becki Z. at 228-604-2205.

-Address Changes (Delayed Reentry)

A reminder for all Gulfport residents awaiting shipment of their personal belongings: Please remember to contact Becki Z (228-604-2205) if you have a change in address or are anticipating a change of address in the next 30 days.
